

The IWOfurn Education Center

The IWOfurn Education Center shall support you as you enter into communication with IWOfurn. We shall facilitate your entry into the IWOfurn operating environment with the help of web-based seminars, IWOfurn webinars, and/or training sessions for your staff and specialist departments on either our premises or your premises.

We offer training that ranges from basic seminars and/or workshops on subjects such as platform handling or the description of functions such as, for example, the IWOfurn Supplier Portal, to workshops tailor-made to suit your needs.

Webinars

Make the most of training provided by time-saving, modular, target group and dialogue-oriented IWOfurn webinars about the full scope and all the possible uses of the IWOfurn B2B communication platform.

- **Basic Seminar - Overview of IWOfurn**

Experience the options that are available to you as a user in a graphic presentation directly in the live environment of the IWOfurn Platform.

- **Basic Seminar - The IWOfurn Supplier Portal**

Learn about the user interface and the scope of operation of the IWOfurn Supplier Portal via the general presentation of the Order-2-Pay process.

Trainings

The IWOfurn Education Center offers different schooling arrangements for your staff.

Implementation training courses and advanced training to increase the productivity in using the IWOfurn platform for users which have to attend a new field of activity. The IWOfurn trainings shall help to you to learn all about the IWOfurn functions and applications.
