

IWOfurn Project Center Services

The IWOfurn Project Center staff shall support you as you plan, design and implement your process-optimisation strategies with IWOfurn. Current analysis, aim definition, ROI calculations, solution implementation, on-site introduction, staff training sessions and operating support are all characteristics of our successful project work.

As a GS1 Trusted Partner [www.gs1-germany.de] we never lose sight of the fact that the solutions developed must be able to be re-used in other situations and should also take standardisation into account.

Our core focus: isolated applications have unique characteristics; integrated solutions, however, create the best framework conditions for you to reach your goal of optimisation. This does not mean that we do not support individual projects, but rather means that, we shall always use our know-how to advise and support you as to how you can most efficiently incorporate these solutions into a general concept.

Project Templates

IWOfurn offers best practice project templates for individual tasks, e.g. the introduction of digital signatures for trade or the EDI connection to a manufacturer are tasks that will not necessarily vary during the company's course of activity, other than as regards the embodiment of the contents.

- **processing of digitally signed purchase invoices**
- **Kika/Leiner Portal connection**
- **Krieger / Höffner / Sconto connection**
- **Introduction support for MHS users**

[The MHS inventory management system is a product by SHD Retail Software Ltd & Co.KG, www.shd.de]

Please see the corresponding individual documents for detailed information on the project templates.

Productivity Tools

The IWOfurn Project Center offers you ready-made solutions for specific requirements without the subsequent, associated, direct project costs.

- **Productivity Tool** Archive Connection
- **Productivity Tool** AS2 Connection
- **Productivity Tool** Data Conversion
- **Productivity Tool** Message Validation
- **Productivity Tool** Test Environment

How much do the IWOfurn Project Center Services cost?

The IWOfurn project templates and productivity tools already include a detailed view of the costs. We would be Delighted to provide you with a set-price or time-based quote for other tasks.
